

GREECE NEEDS A EUROPE FIT FOR WORKING PEOPLE

Meet Giorgos Gogos, Chair of the Piraeus dockers

The Piraeus dockers have been foremost in the battle against the austerity programme imposed on Greece. The latest “punishment” for Greece’s defiance of the big industrial, commercial and banking monopolies presently running the EU includes **privatisation of the docks**.

Greek workers cannot continue to fight on their own. They must have real practical solidarity from all European workers to build the kind of Europe we need –
a EUROPE FIT FOR WORKING PEOPLE.
